

# EXTRAS

**1. SELECT FLEXI DISC** Chris Morris material originally recorded for a free flexi disc on the front of Select Magazine in March 1992 during the pre-production for *On The Hour* Series Two.

**2. RESURRECTION CATTLE** Ted Maul assembled this report about cattle rising from the dead for BBC western region over the May bank holiday in 1992. He offered the piece to Radio Four's news flagship the *Today* programme and they accepted. The report was sent 'down the line' to London and was placed on the *Today* running order for Bank Holiday monday. Unfortunately for Maul an over zealous *Today* editor decided to double check the details of the piece with the BBC Bristol newsroom at 6am - about 40 minutes before the report was due to go out. Since the journalists of the west country were jealous of Maul's scoop, they refused to back his story. To this day Maul is still waiting for the £70 fee he is due for this ground breaking and suspiciously buried report.
